Blue Horizons
Concentrated Phos Away

Key Features
- Phosphate removal means fewer algae problems
- Less cleaning and vacuuming
- Reduces pool maintenance
- Liquid for easy application

Blue Horizons Concentrated Phos Away helps reduce phosphates in your pool water, thereby removing a food source for algae growth.

Application Instructions

1. If the pool has algae, follow normal steps to cure.
2. Maintain pH level within the ideal range of 7.2 – 7.6. If not in this range, adjust.
3. Backwash the filter if necessary.
4. **Shake the bottle well** and with the filtration running, add the require dose slowly via a clean and empty skimmer.
5. Run the filtration for a minimum of 24 hours after product application, then backwash the filter thoroughly to remove trapped phosphates.

Litres	Gallons	Preventative	Phosphate level: 200 – 1,000ppb	Phosphate level: 1,000+ ppb
4,546	1,000	23ml	45ml	90ml
11,365	2,500	56ml	113ml	225ml
22,730	5,000	113ml	225ml	450ml
45,460	10,000	225ml	450ml	900ml
68,190	15,000	335ml	675ml	1.35ltrs

*Parts per billion

Note: When phosphate levels are 100ppb or less, begin preventative weekly dose of Blue Horizons Concentrated Phos Away.
