Blue Horizons
Rapid Liquid Floc

Key Features
- Fast-acting alternative to traditional floc granules
- Settles debris to the pool floor for easy vacuuming
- Apply directly to pool – no pre-dissolving

Rapid Liquid Floc is a highly effective alternative to traditional floc treatments. It settles debris to the bottom of the pool for easy vacuuming and removal.

Application Instructions

1. With the filtration operating in re-circulate setting, pour Rapid Liquid Floc gently around the pool perimeter.
2. Maintain pH levels within the ideal range of 7.2 – 7.6. If not in this range, adjust.
3. After one hour, switch the circulation and filtration system off and leave for 12 - 24 hours.
4. After this period, slowly vacuum the settled debris to waste.
