

Gold Horizons

Spa Cartridge Cleaner

Key Features

- Rapidly removes grease and oil from cartridge filters
- Restores filter efficiency
- A traditional cartridge cleaner

Debris and grease can quickly accumulate on cartridge filter elements impairing performance. Use Gold Horizons Spa Cartridge Cleaner to remove oils and greases from the filter, restoring filter efficiency.

Application Instructions

Important: Always wear protective gloves when applying this product.

1. Remove filter from hot tub and hose off any loose debris.
2. Fill a clean plastic bucket, large enough to fully submerge the filter, with clean water.
3. Add 1 litre of Gold Horizons Spa Cartridge Cleaner for every 20 litres of water in the bucket.
4. Carefully submerge the cartridge element in the solution and allow it to soak for a minimum of 8 hours, or ideally overnight.
5. Carefully remove the filter from the cleaning solution and rinse thoroughly with fresh water.
6. Allow the filter to dry before returning it to service.
