Gold Horizons
Spa Clear Flush Plus

Key Features
- Keeps spa plumbing clean
- Rapidly removes soaps and oils from pipework
- Helps to prevent biofilm formation

Gold Horizons Spa Clear Flush Plus has been specially formulated to remove soaps, grease and biofilm from hot tub plumbing.

Application Instructions

1. Dose directly into the hot tub skimmer basket or filter chamber with the filtration running to aid product distribution.
2. For a **routine clean**, leave the pumps running for a minimum of 10 minutes after product application and a further 30 minutes of standing water prior to draining down.
3. Rinse the hot tub with clean water before refilling.
4. Alternatively, for a **thorough clean**, leave the pumps running for a minimum of 10 minutes after application then leave the hot tub water standing for 12 hours (overnight), prior to draining down.
5. Rinse the hot tub with clean water before refilling.

Litres	Gallons	Routine clean	Thorough clean
1,000	220	250ml	500ml
1,500	330	375ml	750ml
