Gold Horizons
Spa Non Chlorine Shock

Key Features
- A fast dissolving, chlorine-free shock
- Destroys bather wastes
- Fast acting

These chlorine-free shock granules are ideal for regular oxidation of hot tub water. They are suitable for hot tubs running on chlorine or bromine.

Application Instructions

1. Maintain pH level within the ideal range of 7.2 – 7.6. If not in this range, adjust.
2. Maintain free chlorine or bromine levels within the ideal range of 3 – 5mg/l.
3. Pre-dissolve this product in a clean plastic container at a maximum rate of 10g of product per one litre of clean warm water. Stir well to ensure product is fully dissolved. Add the resulting solution to the hot tub with the filtration turned on.
4. After adding Non Chlorine Shock, allow at least 30 minutes before bathing resumes. Leave the hot tub cover off for at least one hour.

Litres	Gallons	pH dose rates
1,000	220	11g
1,500	330	22g

Note: Use Gold Horizons Non Chlorine Shock weekly or after prolonged hot tub use.
