

# AquaSParkle

## Cartridge Cleaner

### Key Features

- Rapidly removes grease and oil from filter cartridges
- Restores filter efficiency
- A traditional cartridge cleaner

Grease, grime and debris can rapidly accumulate on your hot tub cartridge filter, reducing performance and impairing water clarity. AquaSParkle Cartridge Cleaner will effectively restore filter efficiency and cleanliness.

### Application Instructions

- 1) Fill a clean plastic bucket with sufficient water to submerge the filter.
- 2) Add 1ltr of Cartridge Cleaner for every 20 litres of water in the bucket.
- 3) Remove the dirty filter from your hot tub and hose off any loose debris.
- 4) Immerse the filter in the cleaning solution and leave to soak for a minimum of 8 hours.
- 5) Carefully remove the filter from the cleaning solution and rinse thoroughly with plenty of fresh water.
- 6) For optimum results, allow the filter to dry thoroughly before returning it to service.

**Warning:** Always wear rubber gloves when using this product.
