Instant Filter Cleaner

Key Features

- Rapidly removes grease and oil from cartridge filters
- Trigger spray for easy application
- Unique no-soak formula for rapid cleaning

Utilising a unique 'no soak' formula, Instant Filter Cleaner rapidly removes debris, oils and body fats from your hot tub cartridge filter. This product should be used on a weekly basis and is also suitable for swimming pool cartridge filters.

Application Instructions

- 1) Wear protective gloves and eye protection. Use outdoors only but avoid use on windy days.
- 2) Remove the cartridge filter from the filter compartment.
- 3) Rinse the filter with fresh water from a hose, taking care to remove any loose debris.
- 4) Thoroughly spray the filter with Instant Filter Cleaner, taking care to penetrate the filter pleats (veins) with cleaner.
- 5) Leave the filter to stand for 15 minutes.
- 6) Rinse the filter thoroughly with fresh water from a hose. Foaming may occur, so continue to rinse until there is no further foaming.
- 7) Repeat steps 4 – 6 for heavily soiled filters.
- 8) Once the cleaning and rinsing process is complete, the filter can be returned to operation.
